New Ways...

Pimpri Chinchwad Municipal Corporation is committed to provide basic amenities and ensure the welfare of its citizens. The rapid growth of the city is a big challenge to meet this objective.

Many people are usually not aware of the functioning and activities of various departments of the corporation as well as the procedures for submitting applications. The administration also has to spend a lot of time in answering queries and providing information.

SARATHI is an initiative which provides this information in the form of Frequently Asked Questions (FAQs) through multiple channels i.e. book, website, mobile app, e-book & pdf book. In addition an interactive platform in the form of a helpline has been started to answer the queries, aid grievance redressal and guide the citizens when needed.

SARATHI will enable the citizens of Pimpri Chinchwad to seek information easily which will save their precious time. I am sure SARATHI will play a key role in empowering the citizens for taking decisions and actions for their own welfare. I support this initiative wholeheartedly. I appreciate the efforts taken by the officers of PCMC to start this innovative channel of communication for the benefit of the society.

SARATHI was launched on 15th August 2013 on the occasion of Independence Day in Marathi language. I am very happy that PCMC is now launching the English version of SARATHI on the occasion of Republic Day! This would surely benefit the cosmopolitan population of the upcoming IT city of Pimpri Chinchwad.

My best wishes for this endeavor!

Mohini Lande
Mayor,

Pimpri Chinchwad is the fastest growing city of Maharashtra state which itself is experiencing rapid urbanization. PCMC faces the challenge of providing the basic amenities to the citizens of this fast growing city.

It has been noted that people spend a lot of time when they visit government offices to seek information, submit applications, register complaint etc. The administration too has to cope with the overload of demand for information and grievance redressal. It was realized that there is a need of a mechanism which would spare the precious time of the administration spent in answering queries and at the same time satisfy the information needs of the community.

With this background the necessary information of all the departments of PCMC was collected and presented in the form of FAQs which were published in the book – SARATHI (System of Assisting Residents And Tourists through Helpline Information). With the use of Information Technology SARATHI has also been made available on website, mobile app, e-book & pdf book. The citizens can also access the information and register their complaints through the helpline (8888006666). SARATHI was launched to provide the citizens with these multiple channels of communication which will connect the citizens with the city managers effectively.

I am very happy that PCMC launched this innovative step of SARATHI on 15th August 2013 and in a short span of 5 months, SARATHI has become immensely popular with a total of 78,241 citizens having benefitted from this initiative. It is a momentous occasion to launch the English version of SARATHI on the occasion of the Republic Day, 26th January 2014.

I am thankful to the Mayor and other office bearers of the Municipal Corporation for providing invaluable guidance and support for this initiative. I acknowledge the hard work which all the HODs have put in to provide complete and up to date information which is presented to the citizens through multiple channels of SARATHI.

</tr>
<tr>
<td>Dead Body from outside of Municipal limit</td>
<td>Rs. 330 Per day</td>
</tr>
</tbody>
</table>

Que.23. What is the process of post-mortem? Why does it take so much so time?
Ans. The Process is as follows
1. In case of sudden death, doctors express the need of post-mortem with patient’s relatives as doctors are not aware of reason of death. The police need to be intimated.
2. Police have to reach the site of hospital and perform Panchnama.
3. The dead body has to be sent for post-mortem.
4. Medical officer has to carry out the postmortem.
5. Dead body is to be handed over to relatives for last rituals.
6. Postmortem report is handed over to Police and in turn police give it to relatives.
   Hence, chances of delay in process cannot be ruled out.

Que.1. What is BRTS?
Ans. BRTS means Bus Rapid Transit System. It is being developed under the JnNURM Project.

Que.2. What are the features of BRTS bus service?
Ans. Features of BRTS bus service are as below:
1. Rapid and comfortable travelling.
2. Information about Bus timing and bus route by announcements and flashing on Digital Board.
3. Entry and Exit in BRTS bus is similar to local train; in other words due to level boarding entry into the bus and exit will be very smooth & comfortable. Removing steps will help senior citizens and physically handicapped to take up journey without any support and help
4. Tickets will be issued at bus stop only; no need to take tickets in the bus.
5. Intelligent Transport System (ITS), Off board ticket, Automatic door system etc. will be provided.

Que.3. What will be the length of BRTS route in the city?
Ans. Proposed length for BRTS service is 45 km.
Following routes are being planned.
1. Mumbai - Pune Road (12 km)
2. Sangvi - Kiwale Road (14.50 km)
3. NashikPhata - Wakad (8 km)
4. Kalewadi - Dehu-Alandi Road (10.25 km)

Que.4. Why BRTS route is in the middle of the road?
Ans. Purpose behind it is to give priority to public bus service.
BRTS is planned in middle of the road with a view to reduce traffic disturbance on the left side of the road and also to reduce real travel time. Across the world BRTS gangway (Lane) is in the middle of the road.

Que.5. Why BRTS bus stations are planned at the center of the road?
Ans. Since BRTS lane in the middle of the road, bus station also needs to be at center of the road.

Que.6. Will BRTS travel ticket be costlier?
Ans. BRTS bus travel ticket will be equal to PMPML’s ticket for other routes.

Que.7. Where do I get information about BRTS bus schedules and route etc?
Ans. Information about BRTS bus schedules and route etc. will be available at bus-Station & on PMPML website. It will be also available on BRTS Corridor bus stations once the bus service starts.
### Que. 8. Are BRTS buses air conditioned?
**Ans.**
Presently, BRTS buses are not air conditioned. However, in future on public demand, air conditioned buses could be considered.

### Que. 9. Can the visually and physically handicapped persons travel on BRTS bus?
**Ans.**
All facilities to make bus travel comfortable for blind and handicapped persons are being made. Hence they can travel comfortably.

### Que. 10. Are any parking facilities available for the BRTS passengers?
**Ans.**
Yes. Parking facilities will be available for BRTS passenger, near major bus stops.

### Que. 11. Is BRTS for Pune and Pimpri-Chinchwad different?
**Ans.**
No. Respective Municipal Corporations have developed the necessary infrastructure for BRTS in their cities. However, BRTS of both the cities will be managed by PMPML. Hence BRTS for the city of Pune and Pimpri-Chinchwad is same.

### Que. 12. In which cities BRTS bus services are available in India?
**Ans.**
Ahmadabad, Rajkot, Indore, etc. are successfully running BRTS bus services.

### Que. 13. The bus terminus is in the middle of the road. Is it safe for the passengers?
**Ans.**
Pedestrian paths and other security arrangement have been made near the BRTS Bus station thereby making it safe for passengers.

### Que. 14. Will there be any change in the bus route because of BRTS?
**Ans.**
There will be some changes in bus-route because of BRTS. However, ultimately the passengers will save travel time.
